Priority number(s): CN19990113628 19990412

Abstract of **CN1270244**

An antibacterial carpet is made up through convention dyeing, centrifugal dewatering, adding water and antibacterial material in the ratio of (10-15) : 1 to dyeing case, and uniform stirring. Its advantages are strong antibacterial power, broad spectrum, high washing resistance, no by-effect and low cost.
